

### **C. Remarks**

Figure 2 is amended. A diagrammatic revision has been made where float 23, pipe 22, pump 24, and valve 25 have been replaced with floats 23 and 23', pipes 22 and 24, and pumps 25 and 25'. Also blower 21 has been omitted, vent pipe 20 has been renumbered to 21, and has been joined to a new numbered inlet vent pipe 20. Also an outlet vent pipe 20' has been added. A check for \$108 to cover payment of the 12 new dependent claims is attached. I claim small business entity status.

Respectfully submitted,

By Paul A. LaViolette, Ph.D.
